I think that format is fine.

We understand about the contractors and equipment. Not a problem.

Besides the 2 Congressmen there will likely be 2 staff attending as well. I will forward those names to you.

I will get back to you on areas of specific focus.

Thank you for your assistance.

Hi Deb,

July 29 at 1 p.m. will work.

The Regional Administrator has a previous event scheduled and will not be able to attend.

He will send a member of his senior leadership team and program experts. We'll also invite the Missouri Department of Natural Resources to attend as well.

We're thinking of doing a site briefing to provide history and background (15-20 minutes) before the tour and then tour the site (40-45 minutes).

Please be advised that due to contractors and equipment on site, our access will be a bit limited/controlled.

Also, to better understand and meet the needs of Congressman Shimkus and Congressman Davis, will you let me know:

1. Is there anything specific they would like to learn about the site?
2. Is there any specific area of focus or emphasis?
3. Besides the Congressmen, who else will be attending?

Thanks.
